Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 29 October 2007 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 27, 28, 33, 35, 37-39, and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Gonzales et al (US 5,846,216).

Gonzales teaches a delivery kit (Fig 1) comprising a fluid pump (38), a length of tubing (12), a catheter (90) having a non-expandable uniform outer diameter (Fig 5), plurality of fluid exit holes (94), further comprising a tubular porous membrane (82); and a peelable introducer (18).

As to claims 28, 33, 38, 39 Fig 1

As claim 35, 41 valve (41)

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 34, 36, 40, and 43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gonzales as applied to claims 27 and 37 above, further in view of McWilliams (US 5,788,674).

Gonzales does not teach an elastomeric infusion pump, needle, or filter in the infusion tubing.

McWilliams teaches an elastomeric infusion pump (Fig 2) with filter (302, Fig 3a) and needle (Fig 3a).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to include the filter, elastomeric type pump, and needle of McWilliams in order to remove air (filter), allow for controlled infusion of medication (elastomeric pump), and facilitate connection to the patient (needle).

Response to Arguments

6. Applicant's arguments with respect to claims 27, 28 and 33-43 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth R. MacNeill whose telephone number is (571)-272-9970. The examiner can normally be reached on 9:00-5:30 M-F.
